## SLUMP IN STOCK LIST

CLEVERLY MANIPULATED DECLINE BY BEARS ON 'CHANGE.

Stringent Money Market, the Rate Touching 12 Per Cent.-Local Markets Quiet and Dull.

At New York yesterday money on call was stringent at 6@12 per cent.; last loan, 6 per cent; closed, 506 per cent. Prime mercantile paper, nominally, 7@9

Sterling exchange firm and higher, with actual business in bankers' bills at \$4.84%@ 4.84% for demand, and \$4.81% 04.81% for sixty days; posted rates, \$4.82@4.82\2 and \$4.85\2; commercial bills, \$4.8014.

Bar silver, 64%c; silver certificates, 64%@ 65%c. At London bar silver closed at 29 15-16d per ounce.

Total sales of stocks were 304,677 shares, including the following: American Sugar, 84,800; Burlington & Quincy, 25,100; Chicago Gas. 15,890; General Electric, 3,200; Louisville & Nashville, 11,700; Manhattan consolidated, 3,800; Missouri Pacific, 3,000; Reading, 63,400; Rock Island, 6,600; St. Paul, 19,300; Tennessee Coal and Iron, 4,600; Western Union, 8,500; Southern, preferred, 3,100;

silver certificates, \$16,000. The speculation in stocks on New York 'Change yesterday exceeded any recent record, and despite exceptionally heavy dealings in Sugar and Reading, the market could be fairly termed broad, a number of the prominent shares attracting attention by fair-sized totals. The operations were signalized by a scoop against values on the part of some person or persons un-known, presumably interested on the short side, and the combined effectiveness and simplicity of the tactics employed once more illustrated the short-sightedness and gullibility of the average Wail-street trader. The scheme which purported to forecast political complications between this country and Spain, together with a rise in call money to an extreme 12 per cent., caused recessions in prices of 1@1% per cent. in the general list, while Sugar lost 2% per cent. The stratagem enabled many shorts who were being "gunned" for by a lead-ing operator to either escape altogether or limit their losses. The market displayed irregularity in the initial dealings, but the changes were slight, aside from Chicago Gas, which sold down 1/2 per cent. A firm tone soon developed and on heavy pur-chases for both accounts prices rose all along the line, with an especial inquiry for the high-priced industrials. Sugar touched 115%c, and Chicago Gas has recovered practically all of the loss. Foreign sales were noted to a fairly large extent, but the offerings were well taken. Commission houses were also large purchasers. Soon after the first hour the raids referred to at the beginning of this article were inaugurated,

and the speculative temper temporarily underwent a radical change. The stringency in money imparted a feverish tone to the market, although sharp rallies oc-curred in the early afternoon, based on cov-ering. Sugar recovered 1%c, and the reac-tions in Reading and Chicago Gas were also material. Strength in the exchange mar-ket, in the face of the tightness of money, was variously attributed to the temporary indisposition of bankers to extend their opindisposition of bankers to extend their operations by drawing, to sales of our securities for foreign account, buying of exchange for hedging purposes and finally to scarcity of ocean freight room. The marget was again raided in the last hour, alcount. Money reacted to 6 per cent. and the closury was weak, with net change. closing was weak, with net changes sharp fractional losses generally.
Railroad bonds were moderately active,

but without special feature, aside from firmness in tone. The sales were \$1,241,000. Government bonds were quiet and without change, aside from slight concession in the fives. The sales were \$15,000. Silver certificates worked slightly lower on dealings of

## LOCAL GRAIN AND PRODUCE. More Activity to Trade Yesterday-

Poultry and Eggs Firmer. On the wholesale streets and on Commission row yesterday trade showed some improvement over several of the pre- 16 to 12 lbs average, 6%c. ceding days, but taken as a whole, it is very quiet. Poultry is firm at the advance of 1/2 on Monday and eggs are in active request,

some of the shippers paying 16c. Two quotations are given on both poultry and eggs, as some of the shippers and dealers are paying the higher quotation. The hide market is less active than in early October, and while prices are not changed they rule easy. The leather market changed they rule easy. The leather market | red top, changed they rule easy. The leather market | lbs, \$1.50@1.60. maintains its strong position as regards prices, but the last few days trade has been very quiet. The wholesale grocers are having a fair trade \$5.50@6; IX, 10x14, 14x20, 12x12, \$7@7.50; IC, 14x20,

is usually the case at tax-paying time, as when the retail merchant cannot collect his bills, un-less well fixed financially he must be slow on his eturns to the wholesale merchants.

LOSS OF TWO CENTS YESTERDAY ON SELLING AND LOWER CABLES.

Heavy Receipts in the Northwest Help the Bears-Other Grain Lower and Provisions Fall off.

CHICAGO, Oct. 27 .- Wheat suffered from a variety of causes to-day and closed with a loss of 2c, though selling at one time %c under that figure. Among the chief reasons for the slump were the disappointing cables and heavy liquidation by prominent brokers. Other markets were also effected to a degree, corn declining 1/2c, oats about 14c and provisions 21/2071/2c.

Everything went against wheat at the eggs firm and unchanged. Cheese firm and ac opening of the market to-day. The most tive and unchanged. depressing features were the early cables and then the Northwest receipts. After the advance of 1c here yesterday, Liverpool was expected to show steadiness at least and the weakness of that market was a decided disappointment. Clover seed dull and lower; prime, October cember at over 70c, and so anxious had some people in the crowd become to sellhaving stop loss orders at about 70c—that a sale or two at 69%c took place in the opening melee, as against yesterday's closing price of 70%c. If it had not been that about 1,500,000 bu of hedges against the wheat in the Pacific elevators had to be bought in in consequence of having been burned by yesterday's fire, the opening weakness would doubtless have been intensified. As it was the later Liverpool ca-blegrams noted a decline of about 1½d per cental, and that caused a drop in the price of December to 69%c, after having had a short reaction from the opening figure to holds strong, with sales making as supplies to have aggregated over 500,000 bu. New York also poured in selling orders, as did other leading markets, and the trade was simply swamped with the offerings. An-other disturbing factor was the high money rate at New York. John Cudahy was a steady and persistent seller, especially on the soft spot. His tradings have been very heavy for some time, and as he has generally been on the right side of the market, he had a large following, the conbeing that wheat poured on the market at times in a perfect avalanche. Prices continued to go downward during the fast hour under heavy liquidation, December finally reaching 694c. This was the turning point, and December had recovered to 694c at the close, though remaining active and nervous to the end. Corn ruled slow and weak, following the course of wheat. May opened 1/4c lower at 23/2281/2c, and gradually sold down to 27/4c, closing weak at 27%@28c Oats were quiet but strong, holding bet-ter than wheat or corn, but this was more

on account of limited trading than from any independent strength. Prices held well up to noon, but in the last hour were af-fected by the drop in wheat. May opened a shade lower at 21%c, declined to 21%@21%c Hog receipts here exceeded yesterday's estimates by 4,000 head. That and weak grain markets caused the selling pressure. After the opening decline prices fluctuated but little. January pork closed 7½c lower at \$7,87½; January lard .02½c lower at 4.55c; January ribs .05c lower at 3.85@3.87½c.
